

It is my understanding that the FCC is considering giving priority to LPFM over FM translator services. Please consider the hundreds of thousands of citizens who listen to K-LOVE radio via these FM translators, who would be cut off from their main source of positive and encouraging music and programs. K-LOVE allows me and my fellow listeners the opportunity to hear to music that does not contain negative lyrics or messages but rather lyrics and messages of hope, inspiration, and love. I am confident that on a daily basis there are numerous citizens of this country who "stumble" upon K-LOVE on their local radio frequency and receive these same positive messages which can dramatically change their mood and outlook on life. In our country where we see families and communities torn apart by hate, bigotry and selfishness, anything that can promote love and healing must be protected. By giving priority to LPFM, and effectively eliminating K-LOVE from many airwaves you will be removing a powerful tool for encouraging others to live lives filled with peace, hope and love. I encourage you to carefully consider the negative impact your decision allowing this to take place would have on our communities.
